

## **Sober and Responsible**

I understand that the purpose of the Dragon Boat Festival is to have fun while we build awareness and support for Dragon Boat Charleston. While the event is open to the public, we, as teams, wish to leave the event as healthy as when we arrived.

As Team Captain, I will ensure the safety of my teammates during the Festival by making sure that every person is safe and sober to compete and that each person is capable to leave the park safely. If someone is in need of a ride home, I will make sure that we find an alternative ride for that person. I also understand that there are police and security in the park to assist me and our team in this matter.
